NUMBER 40.

## THIRTEEN HOURS.

Fierce Battle Between Marines,  
Spanish Guerrillas and Regu-  
lars at Guantanamo.

ENGAGEMENT ALMOST CONTINUOUS.

It Commenced at Three O'Clock Satur-  
day Afternoon and Ended at Six  
O'Clock Sunday Morning.

Four of Our Men Killed and One Wounded  
—Advance Picket Unaccounted For  
—Spanish Loss Unknown, But  
It Was Probably Large.

ON BOARD THE DISPATCH BOAT DAUNT-  
LESS, OFF GUANTANAMO, Sunday, June  
12, via MOLE ST. NICHOLAS, Hayti,  
June 13.—Lieut. Col. R. W. Huntington's  
battalion of Marines, which landed  
from the transport Panther on Friday  
and encamped on the hill guarding the  
abandoned cable station at the en-  
trance to the outer harbor of Guana-  
tanamo, has been engaged in beating  
off a bush attack by Spanish guerrillas  
and regulars since 3 o'clock Saturday  
afternoon. The fighting was almost  
continuous for 13 hours until 6 o'clock  
Sunday morning, when reinforcements  
were landed from the Marblehead.

Four of our men were killed and one  
wounded. The advance pickets were un-  
accounted for. Among the killed is As-  
sistant Surgeon John Blair Gibbs, son  
of Maj. Gibbs, of the regular army,  
who fell in the Custer massacre. His  
home was at Richmond, Va., but he  
has been practicing in New York and  
he entered the service since the war  
began. He was a very popular officer.  
The others killed are Serg. Charles H.  
Smith, of Smallwood; Private William  
Dunphy, of Gloucester, Mass., and  
Private James McColgan, of Stoneham,  
Mass.

Corporal Glass was accidentally  
wounded in the head.

The Spanish loss is unknown, but it  
was probably considerable. The  
splashes of blood found at daylight at  
the position the Spaniards occupied in-  
dicate fatalities, but their comrades  
carried off the killed and wounded.

The engagement began with desul-  
tory firing at the pickets 1,000 yards  
inland from the camp. Captain Pieper's  
company was doing guard duty and  
was driven in, finally rallying on the  
camp and repulsing the enemy at 3  
o'clock. The bodies of privates Mc-  
Colgan and Dunphy were found, both  
shot in the head. The large cavities  
caused by the bullets, which inside a  
range of 500 yards have a rotary mo-  
tion, indicate that the victims were  
killed at close range.

The bodies were stripped of shoes,  
hats and cartridge belts, and horribly  
mutilated with machetes.

When they were brought in the  
whole battalion formed three sides of  
a hollow square about the camp on the  
hill top. Below in the bay were the  
war ships at anchor. Inland from the  
hill camp is a deep ravine and beyond  
this are high hills. The adjacent coun-  
try is heavy with a thick growth.  
The sky was blanketed with clouds,  
and when the sun set a gale was blow-  
ing seaward. Night fell, thick and im-  
penetrable.

The Spanish squads concealed in the  
chapparal cover had the advantage, the  
Americans on the ridge furnishing fine  
targets against the sky and the white  
tents. The Spaniards fought from  
cover till midnight, discoverable only  
by flashes at which the marines fired  
volleys. The repeaters sounded like  
crackers in a barrel.

The Marblehead launched a Colt ma-  
chine gun in her bow, pushed up the  
bay enfilading the Spaniards, and it is  
thought that some were killed. The  
marines trailed much blood to the wa-  
ter's edge and there lost it. Sharks are  
numerous in the vicinity.

The ships threw their search lights  
ashore, the powerful electric eyes  
sweeping the deep tropic foliage and  
disclosing occasionally skulking par-  
ties of Spaniards. It all resembled a  
transformation scene at the harbor.

Each discovery of the enemy was  
greeted by the cracks of carbine fire  
along the edge of the camp ridge or by  
the long roll of the launch's machine  
guns, searching the thickets with a  
leadens stream.

Shortly after midnight came the  
main attack. The Spaniards made a  
gallant charge up the southwest slope,  
but were met by repeated volleys from  
the main body and broke before they  
were one-third of the way up the hill;  
but they came so close that at points  
there was almost a hand to hand strug-  
gle. The officers used their re-  
volvers. Three Spaniards got through  
the open formation to the edge  
of the camp. Col. Jose Campin, the  
Cuban guide, discharged his revol-

ver, and they, turning and finding  
themselves without support, ran helter  
skelter down the reverse side of the  
hill. It was during this assault that  
Assistant Surgeon Gibbs was killed. He  
was shot in the head in front of his  
own tent, the farthest point of attack.  
He fell into the arms of Private  
Sullivan and both dropped. A second  
bullet threw dust in their  
faces. Surgeon Gibbs lived ten min-  
utes, but did not regain consciousness.

The surgeons of the hospital corps  
then removed their quarters to the  
trenches about the old Spanish stock-  
ade north of the camp. The attacks  
were continued at intervals through-  
out the rest of the night, with firing  
from small squads in various direc-  
tions.

Toward morning the fire slackened.  
Dawn is the favorite time for attack,  
and, as the east paled, the marines  
lying on their guns were aroused.  
Some were actually asleep, as they had  
no rest for 48 hours and tired nature  
could no longer stand the strain. But  
no attack came.

Three new 12-pound field guns,  
which could not be used during the  
night for fear of hitting our own men,  
shelled several squads of Spaniards  
after daylight. They dove into the  
bushes like prairie dogs into burrows  
as the shells broke over them in the  
gray dawn. As the correspond-  
ent talked with Maj. Coakrell, who  
was in charge of the out-  
posts, word came of the finding of the  
body of Sergt. Smith. He was re-  
ported, as having been killed at five  
o'clock on the previous day, but it  
appears that he had been seen alive at  
ten o'clock in the evening. When and  
how he was killed no one knows at  
this writing. Neither had the men  
been mustered nor had the outposts of  
Lieut. Neville and Shaw been relieved.

Lieut. Col. Huntington and Maj.  
Coakrell gave high praise to the nerve  
and steadiness of officers and men, es-  
pecially the young ones, as the en-  
gagement was a baptism of fire for a  
large majority. The men were in  
darkness and in a strange land, but  
they stood to their posts with courage  
and confidence and there was no sym-  
ptom of panic.

The marines, though very much ex-  
hausted, were eager for more fighting,  
pursuing to inflict heavy punishment.  
They complimented the daring of the  
Spaniards with characteristic camp  
profanity.

Sunday the amplest precautions were  
taken and as the countless left rein-  
forcements were landing from the  
Marblehead. A stormy time was ex-  
pected.

Estimates vary as to the attacking  
force, some say 200 and the figures run  
as high as 1,000. Col. Campina, the  
Cuban guide, said the Spaniards were  
mostly irregulars, but the reports of  
the discharge of Mauser rifles would  
indicate that they were regulars, as  
most of the guerrillas carry Remingtons.  
The Cuban guerrillas, as a rule,  
have more dash and courage than the  
regulars.

The new campaign uniforms prove  
satisfactory and are almost invisible  
at a distance of 200 yards. The Lee  
guns caused several accidents in draw-  
ing cartridges. Corporal Glass shat-  
tered his hand.

Despite the loss of the men, which is  
keenly regretted, the marines rejoice  
that they have been engaged in their  
first fight on Cuban soil. They sailed  
from New York the day war was de-  
clared and expected to land within a  
week at Havana. Since then, until  
landed on the shore of Guantanamo  
bay, they had been cooped up on the  
Panther and they had begun to fear  
that the troops would beat them after  
all.

In controlling the outer harbor of  
Guantanamo, where Lieut. Col. Hun-  
tington's battalion of marines landed  
on Friday, R. Adm. Sampson seizes  
possession of the Cuban terminals of  
the French cable to Hayti. The ap-  
paratus in the office at the harbor  
mouth was wrecked by a shell but  
the cable steamer Adria has instru-  
ments and operators aboard and di-  
rect communication with Washing-  
ton will soon be established. The dis-  
tance overland to Santiago around the  
bay is about sixty miles and the roads  
have been rendered impassable by the  
Cubans under Pedro Perez. The first  
division of the Cuban army claims to  
have 4,000 men, but these figures  
are probably over estimated. The  
Cubans believe that there are  
about 3,500 soldiers in the vicini-  
ty of Calmaera, which lies  
at the entrance to the inner harbor.

Guantanamo City is inland about 15  
miles. The two harbors are connected  
by a narrow channel. It is the outer  
harbor which Adm. Sampson now  
holds with the Marblehead, the Yose-  
mite and the Vixen, and with a bat-  
talion of marines on the crest of a blunt  
topped eminence commanding the  
entrance on the western side. In the  
inner harbor are two small Spanish  
gunboats and at Calmaera there is a  
battery.

An expedition of three steam  
launches, officered by Lieut. Norman,  
Ensign East, son of Mr. James D.  
East, former United States ambas-  
sador to France, and Cadet G. Van Or-  
den, under the general command of  
Lieut. Anderson, of the cruiser Mar-  
blehead, Saturday night, dragged for  
mines, but found none. Lieut. Ander-  
son, who distinguished himself at  
Cienfuegos, pulled a dingy within 50  
yards of the fort without being discov-  
ered. He found the fort to consist of  
masonry, with three guns mounted  
seaward.

Judging from the panic in which the  
Spaniards fled from the village at  
Fisherman's Point, they will scatter  
at the first approach. They left at  
Fisherman's Point three antiquated  
Howitzers, several cases of ammuni-  
tion, shell and canister, some Mauser  
rifles and a regimental flag of the In-  
fanteria Del Principe No. 3.

Every precaution has been taken to  
guard the men from disease. All huts  
in the locality have been razed. Large  
casks of Spanish wine have been  
smashed, two wells have been board-  
ed up and all the drinking water used  
is supplied from the fleet. The marines  
are well equipped for the campaign.  
The camp will probably be named  
Camp McCalla, after the commander  
of the Marblehead, who is indefatiga-  
ble and has not removed his clothing  
since the bombardment.

Sunday morning the British steamer  
Newfoundland, of Montreal, with a  
general cargo from Halifax, steamed  
into the harbor. Her commander was  
greatly surprised at the presence of  
the Americans, but he retained enough  
composure to dip his flag three  
times and then started to put about.  
A shot across the bows from the Mar-  
blehead stopped him and the vessel  
was boarded, her papers showing that  
she was bound for Jamaica. The cap-  
tain explained that he had put in to  
see if he could get a return cargo of  
sugar. He was informed that he  
could not and was then allowed to  
proceed.

Santiago de Cuba.)

## DESTRUCTIVE FLAMES.

Case's Immense Power House, Detroit,  
Mich., a Total Loss—Five Fire-  
men Badly Burned.

DETROIT, Mich., June 13.—G. F. Case's  
immense power building on Congress  
street, west, was discovered on fire at  
3 o'clock Saturday morning. The  
building was a very large seven-story  
structure, occupied by many light  
manufacturing concerns. It was com-  
pleted a year ago on the site formerly  
occupied by a large livery stable, which  
had burned, causing the death of five  
men. The power building is already a  
total loss.

A four-story annex to the Buil office  
building facing on Congress street  
west was set afire on top by falling of  
burning debris from the Case building.  
The annex was badly gutted. Part of  
spire of St. Paul's Episcopal church  
was burned. Two firemen were badly  
burned and three were injured by fall-  
ing walls.

Several incipient blazes started in  
the Wayne county bank building and  
other office structures in the vicinity  
and numerous awnings and other in-  
flammable materials were consumed.  
Several little fires caught in the 11-  
story Union Trust building, which  
was directly to leeward of the  
burning power building but fur-  
ther serious spread of flames was check-  
ed. An old two-story wooden struc-  
ture west of the Case building was  
crushed by a portion of the tottering  
wall falling upon it. The front walls  
of the Case building leaned outward  
menacingly and finally fell in the  
street, portions at a time. Nothing of  
the Case building was saved.

The case building was valued at \$90,-  
000. It was insured for \$60,000. The  
contents are roughly estimated at  
\$100,000, but may reach above that  
amount.

A Washington dispatch says that the  
Monadnock has been ordered to go to  
Hawaii with a transport carrying a  
large number of marines, raise the  
American flag there and establish a  
base of supplies.

## BOUND FOR CUBA.

Over Fifteen Thousand Blue Coats Sailed  
From Key West Under Command  
of Gen. Shafter.

WASHINGTON, June 14.—It was for-  
mally announced at the war depart-  
ment Monday morning that the first  
military expedition had left Key West  
at daylight Monday bound for Santi-  
ago. All day Sunday there was a live-  
ly conference between the officials of  
the navy and war departments, and  
after an all-day session the war board  
completed its plans for conveying  
the troop transports. Maj. Gen.  
Shafter, who commands this expedi-  
tion, has with him a force of 773 officers  
and 14,501 enlisted men. The United  
States regular troops make up the  
greater part of the force there being  
but three volunteer organizations on  
the ships. These are the 1st New  
York infantry volunteers, the 2d Massa-  
chusetts infantry volunteers and two  
dismounted squadrons of four troops  
each from the 1st United States vol-  
unteer cavalry, the regiment which  
Col. Wood commands and of which  
Theodore Roosevelt is the lieutenant  
colonel.

Whether either of these officers is  
with the two squadrons named is not  
yet known at the war department. It  
was difficult to prevail upon the  
mounted riders to leave their mounts  
behind, but this was a matter of neces-  
sity. It is said, owing to the lack of  
accommodations for the horses on  
shipboard.

The best that the department could  
do at this time in the way of supply-  
ing the cavalry contingent for the ex-  
pedition was to include among the  
troops one squadron of the 2d United  
States cavalry fully mounted with nine  
officers and 250 enlisted men. The full  
list of the troops that make up this  
expedition as reported to the war  
department by Gen. Shafter, is as fol-  
lows:

Infantry—regiments 6th, 16th,  
73d New York volunteers, 10th, 21st,  
2nd, 13th, 9th, 24th, 8th, 22nd, Massa-  
chusetts volunteers, 1st, 25th, 12th, 7th,  
17th, 2d, 10th, regulars. Total infantry  
officers and 10,709 enlisted men.

Cavalry—Two dismounted squadrons  
of four troops each from the 3d, 6th,  
9th, 1st and 10th cavalry and two dis-  
mounted squadrons of four troops  
each from the 1st United States volun-  
teer cavalry. Total dismounted cav-  
alry, 159 officers, 2,875 enlisted men;  
mounted cavalry, one squadron of the  
3d, nine officers and 250 enlisted men.

Artillery—Light batteries B and K,  
1st artillery A and F, 2d artillery, 14  
officers and 323 enlisted men. Batter-  
ies G and H, 4th artillery, siege, 4 off-  
icers and 132 enlisted men.

Engineers—Companies C and E, 9  
officers, 200 enlisted men.  
Signal Corps—One detachment, 2 off-  
icers and 45 enlisted men.

Hospital detachments are included  
in the foregoing figures.

The staff corps numbers 15 officers.

The grand total of the expedition is  
773 officers and 14,501 enlisted men.

Gen. Shafter in his report indicates  
the great obstacle that had to be over-  
come in order to embark his force at  
Port Tampa, and it is not likely, if his  
recommendation carries weight, that  
the effort will be made to again em-  
bark so large a number of troops from  
this port without considerably enlarg-  
ing the shipping facilities.

## THE BILL SIGNED.

The President Attaches His Name to the  
War Revenue Bill and It is Now  
a Law of the Land.

WASHINGTON, June 14.—The war re-  
venue bill was brought to the white  
house by a house messenger at 2:15  
Monday and was signed by the presi-  
dent at 3:01, and it is now a law.  
Immediately upon receipt of infor-  
mation from the white house that the  
war revenue bill had been signed by the  
president, Secretary Gage issued the  
a circular, explaining to the public the  
proposed bond issue.

## Gen. Pando's Army Corps.

LOXNOX, June 14.—The Madrid cor-  
respondent of the Standard says: The  
army corps under Gen. Pando, in east-  
ern Cuba, is composed of four divi-  
sions, under Gens. Linares, Luque, Al-  
daze and March, stationed respectively  
at Santiago, Holguin, Manzanilla and  
Puerto Principe. Gen. Linares has  
8,000 men who, with the 2,500 under  
Adm. Cervera, are considered by the  
government sufficient to repel in-  
vasion.

## A Boom in the Tea Market.

NEW YORK, June 14.—The duty of 10  
cents a pound on all imports of tea un-  
der the war revenue bill, has caused a  
boom in the tea market and prices  
have advanced very rapidly during the  
last week. The improvement in some  
grades has been as much as seven cents  
a pound, while an average gain in  
values has been about six cents from  
the last auction sale, which was held a  
week ago last Thursday.

cratic party.

We are authorized to announce

a candidate for nomination for  
Representative in Congress subject  
to the action of the Democratic  
party.

Gen. Fitz Lee, it is said, will  
attack Havana immediately with  
40,000 men.

It is to be hoped that Admiral  
Sampson will arrange for a giant  
fire works performance before  
Havana on the 4th of July.

If Spain will hold out long  
enough the spectacle of American  
cannon booming away at the Escu-  
rial Palace itself may excite the won-  
der and awe of the world.

The flying squadron forming at  
Newport News is good for over 20  
knots an hour. Spain will not be  
able to run away from this formid-  
able collection of fighting ships.

Spain collects a revenue of  
about \$173,000,000. Of this \$80,-  
000,000 is paid out as interest on  
the public debt, \$8,500,000 is paid  
to the clergy, and the schools get  
about \$2,500,000.

The case of Portwood that  
Lexington jury decided that hang-  
ing is the best disposition to make  
of a "lunatic" who harbored malice  
for years and finally slew in cold  
blood a cripple pleading for his life.

What nation can compare with  
us when we shall have arranged  
for domestic supplies of cholera  
and bubonic plague from the Phil-  
ippines, yellow fever from Cuba  
and Porto Rico and leprosy from  
Hawaii?

The appearance of a few more  
Spanish spooks in Cuban waters  
will make the prolongation of the  
war until after the Congressional  
elections a certainty. What,  
pay two millions a day war expen-  
ses, and think of prolonging a war  
until the result of the fall elections  
are known.

Out in Missouri they have intro-  
duced hugging societies to swell  
the church treasury, and a Missouri  
paper gives the following scale of  
prices: Girls under sixteen, 15c a  
hug of two minutes, or 10c for a  
short squeeze; from sixteen to  
twentyfive, 75c; school marm, 40c;  
another man's wife, 5c; widows,  
from 10c to \$3; old maids, 3c a  
piece or two for nickel. No limit to  
time.

The price of wheat has gone  
down and Europe has begun to  
buy again in tremendous quantities.  
Exports last week reached nearly  
five million bushels against less  
than two millions for the same  
week last year. The old stocks  
are being cleaned up to the last  
bushel and when threshing is over  
the new grain will come upon the  
markets. If now it should  
happen that Europe should reap  
only moderate crops, we shall soon  
see dollar wheat again.

hurt by the bursting of an old iron

nicely.

From present indications regard-  
ing the maneuverings of Dr. Lewis,  
we are listening for something to

Mr. P. Ketcham of Pike City Cal., says: "During my brother's late sickness from sciatic rheumatism Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by M. C. & D. N. Williams, Mt. Vernon Ky.

A New Orleans dispatch says stenographer E. A. Reppert shot and wounded the superintendent of the Queen and Crescent road over being dismissed. The reporter was unkind enough to revive the slanderous rumor that Mr. Reppert had deserted his wife when the yellow fever appeared in that city last summer, when the fact was Mr. R. came here to attend court, leaving his family all well; and upon receiving a telegram of his wife's illness he left immediately for home.

Wm. Stringer, was struck by lightning and instantly killed Friday last while sitting under a tree in his yard at Pittsburg. Clell Stringer, his brother, was paralyzed for several hours but recovered. There is a \$1,400 road tax; \$250 of it has been set aside for the purchase of tools and the remainder to be divided among the districts. Judge Williams will stand by his Commissioners and overseers in the enforcement of the road laws. The era has arrived for better roads and the outlook is flattering.

I was seriously afflicted with a cough for several years and last fall had a more severe cough than before. I have used many remedies without receiving much relief and being recommended to try a bottle of Chamberlain's Cough Remedy by a friend, who, knowing me to be a poor widow, gave it to me. I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. Respectfully, MRS. MARY A. BEARD, Clarendon, Ark. For sale by M. C. & D. N. Williams.

The Kind You Have Always Bought

Bears the Signature of *Dr. J. C. H. H. H.*

Camp Thomas, Chickamauga, Ga., June 11, 98.

Dear Jim:—I write you a few lines from the famous battlefield. I am getting along very nicely. Harris White and myself have been transferred from the ranks to membership in the 2nd Ky. Regimental band. Harris plays 2nd alto and I the bass. The government has issued a nice cook stove to the band headquarters and we have a good cook. Have plenty to eat, such as potatoes, beans, meat light bread, beef, coffee, sugar and the venerable "hard tack." We have two tents for the band, one large and one small. I am better pleased in the band than in the ranks. We don't have to work any or go on guard duty or drill. All we have to do is to practice our music and go on dress parade in the afternoon and march in front of the Regiment and furnish music. There is a creek one mile from the camp in which we have a nice time bathing almost every day. The drinking water we get is good, but rather warm after running through pipes, which are at present lying on top of the ground. If I had the old "spout spring" down here I would be perfectly at home. I have no kick coming though as it is. The 2nd Regiment has been uniformed, the band also, though not with guns yet but are expecting to get them at an early date. The Y. M. C. A. has a tent here for the benefit of the 2nd Ky. Regiment. They furnish the boys stationary and a place where they can do their writing. They have service every night and preaching every Sunday. Dr. Lawrence and Geo. Pennington are getting along very nicely. Jim Thompson belongs to the band also. I guess you know old "crooked" He used to live at Mt. Vernon and Pineville. He is a good musician too. I get the SIGNAL every week and I just can't find words to express my appreciation of it. I want you to send it to me as long as I am here. Will write you again. Regards to all my friends. JOHN D. Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and ruin his horse, going for a doctor and have a big bill to pay besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer he is getting poorer.
